OPO Data Report

OCTOBER 2026 · FIRST PUBLISHED NOVEMBER 1, 2026 · REVISED NOVEMBER 4, 2026

Public data on U.S. organ procurement organizations (OPOs): CMS performance tiers and rates (2023 data, the newest CMS has published), SRTR referral and donor counts (calendar 2025) and IRS Form 990 filings. CMS's 2023 data covers 57 OPO service areas; after mergers, SRTR's 2025 data has 55 OPOs.

SERVICE AREAS, CMS 2023	OPOS IN SRTR 2025	DONORS, 2025 (SRTR)	REFERRALS, 2025 (SRTR)

What changed

- Renamed and merged OPOs now show their current names: Gift of Life Alliance (Southwest Transplant Alliance and Texas Organ Sharing Alliance, announced October 1, 2026), Network for Hope (Kentucky Organ Donor Affiliates and LifeCenter, 2024), Infinite Legacy (The Living Legacy Foundation of Maryland and Washington Regional Transplant Community, 2023), and Southern Legacy of Life (formerly Arkansas Regional Organ Recovery Agency, 2025).
- CMS finalized its revised OPO Conditions for Coverage on October 30, 2026. New OPTN policies for donation after circulatory death take effect November 18, 2026.
- CMS rates and tiers here are 2023 data, the newest CMS has published. SRTR's January 2026 release (calendar 2025) is the newest SRTR data.
- First edition. From next month this section also lists every name, tier, filing and donor-count change since the previous edition.

CMS certification actions

- **Life Alliance Organ Recovery Agency** (service area FLMP): CMS decertification, effective March 27, 2026. CMS determined that Life Alliance Organ Recovery Agency no longer met the requirements for certification as an OPO. Its first notice set the end of Life Alliance's Medicare agreement for December 17, 2025; a revised notice of December 15, 2025 moved it to March 27, 2026 to allow an orderly transition. On January 8, 2026, after a competitive selection, CMS approved Nevada Donor Network to take over the South Florida donation service area. South Florida Donor Network, which describes itself as part of The Donor Network alongside Nevada Donor Network, now serves the area. CMS notice, September 18, 2025 · CMS revised notice, December 15, 2025 · CMS press release, January 8, 2026 · South Florida Donor Network
- **Network for Hope** (service areas KYDA and OHOV): CMS decertification takes effect June 4, 2027. CMS determined that Network for Hope no longer meets the requirements for certification as an OPO. The first notice set November 3, 2026; a revised notice of November 2, 2026 moved the effective date to June 4, 2027 to allow a transition of the donation service area to another OPO. CMS's notices name the KYDA donation service area; Network for Hope also serves the former LifeCenter area (OHOV), which merged into it in 2024. Network for Hope said it disagrees and plans to appeal. Corrections and notes

- This edition was revised after first publication. Congressional flags are now shown as dated letters with links; each was traced to its source, and 2025 letters from the House Ways and Means Committee were added. CMS's decertification actions for Life Alliance and Network for Hope, missing from the first version, are now shown. Renamed and merged OPOs show their current names. Form 990s older than three tax years are no longer shown. News is limited to items checked against their primary source. The title changed from "OPO Accountability Report".
- Hawaii (Legacy of Life): an earlier data import had read the wrong columns of the CMS workbook, giving a transplant rate of 0. CMS publishes no age-adjusted transplant rate for Hawaii, so the observed rate (21.90) is shown.
- Form 990 figures were refreshed to the newest filings and every EIN was checked against IRS records. LifeBanc and Lifeline of Ohio had each other's figures, and Gift of Life showed another OPO's; all three are fixed. Legacy of Hope and Finger Lakes had shown their parent institution's whole revenue and now show none.
- Chief executive names were re-checked on each OPO's own website (24 had changed since a 2023 import).
- Washington Regional Transplant Community had been shown as Tier 3 for 2023. CMS's newest data for it is 2022, where it is Tier 2.

Sorted by current name. Where an OPO was renamed or merged, the name in CMS's 2023 data is shown under it.

Donation and transplant rates are per 100 CALC deaths (CMS, 2023 data). * observed rate: CMS publishes no age-adjusted transplant rate for this OPO.

No 2023 CMS tier: Infinite Legacy (Washington Regional Transplant Community).

† 2022 data, the newest CMS data for Washington Regional Transplant Community.

No separate SRTR 2025 row: Washington Regional Transplant Community (reported within Infinite Legacy, MDPC) and LifeCenter Organ Donor Network (reported within Network for Hope, KYDA).

Revenue is the newest Form 990, tax year 2023 or later. One combined return covers LifeLink of Florida, LifeLink of Georgia and LifeLink of Puerto Rico; another covers New Mexico Donor Services, Sierra Donor Services and Tennessee Donor Services, so each shows the same figure. Older filings are not shown: Center for Donation and Transplant (2017) and Washington Regional Transplant Community (2022). No 990 figures for OPOs run inside a hospital or university.
